2 Introduction

Today, NEC Corporation of America (NEC) is excited to announce a major step in the enhancement & advancement of the UNIVERGE® 3C™ Unified Communications (UC) platform with the release of version 8.1.3.x. UNIVERGE 3C redefines communications and collaboration with secure, reliable anywhere/anytime communications for business continuity with a common user experience across any device or environment – premise, cloud or hybrid cloud.

This major release builds on UNIVERGE 3C's UC platform by expanding its capabilities with advanced Collaboration, C-LINK Trunking (IP Peer to Peer CCIS), Emergency On-Site Notification (E-OSN), Outlook Calendar and Contact Search Integration & more allowing 3C users to collaborate, communicate & improve their UC experience. . New and existing customers all benefit from the exciting new features and functionality of UNIVERGE 3C 8.1.3.6. Refer to Release Notes document # RN-SPH-13-007 for more detailed features

In order to assist you in upgrading your customers with older Polycom phones (IP300, IP500, etc.), this 3C release adds ability within the 3C Administrator to manage these older Polycom IP phones, where previously this capability had been removed with initial release of v8.0.

UNIVERGE 3C version 8.1.3.x is released with the following:

- 3C Collaboration Meeting Manager (CMM)
- 3C C-LINK Trunking (CCIS Protocol for SV Platform Connectivity)
- 3C Emergency On-Site Notification (E-OSN) for E-911
- 3C Smart Tags for Microsoft Outlook "click to call"
- All features previously released in v8.1.1.3 & more
- Service Pack 1 for v8.1.3.6 is also available for download and provides additional enhancements. It can be downloaded from *NEC Information Portal > 3C/Sphericall Folder > Sys_Docs+8_1_3_6 Folder >* Software Folder.

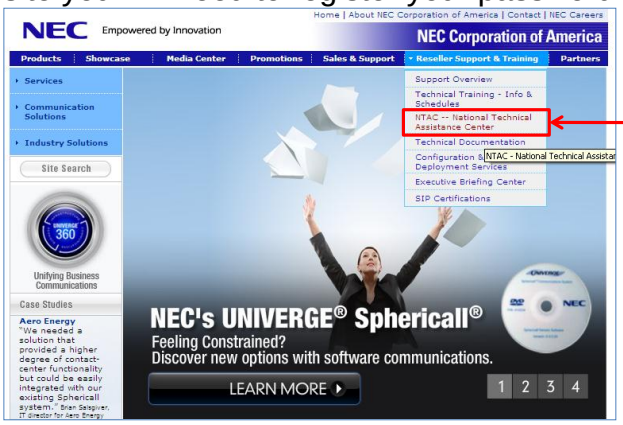
This Price Book replaces the older price book (document # **PBKSPH-11-006aa**).

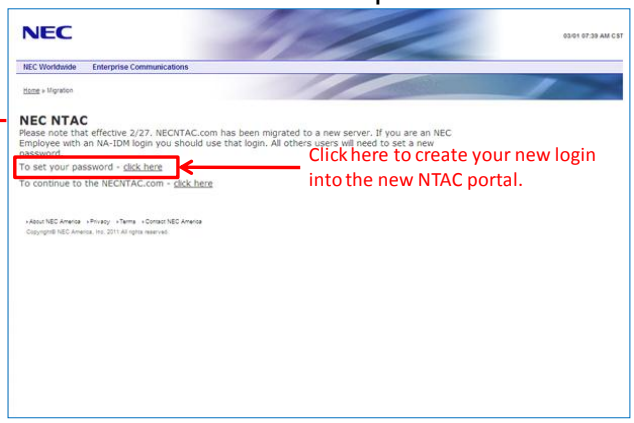
2.1 OBTAINING TECHNICAL ASSISTANCE

To obtain technical assistance, an active software assurance agreement must be in place. If you are an NEC Associate calling for technical assistance, call **800-852-4632** and select option "1". You must have your valid NEC TECH ID available when calling for technical assistance. If you do not have a "Tech ID" or if you have forgotten your "Tech ID", you may contact training@necam.com and provide them with your name and Associate information.

Associate end-users must contact their Associate for technical support. Direct end-users who are calling for technical assistance, call **877-463-2267**. You must have an active software assurance agreement in order to obtain support free of charge, else support may be billable.

Note, the SphereSupport@necam.com email will no longer be allowed when submitting trouble tickets. Emails sent to this address will be redirected to call or use the online site. You must call the "800" number listed above or use NEC's National Technical Assistance's online access to input trouble tickets. Online access can be found by going to www.necam.com > Support > Customer Technical Support & Assistance or www.necam.com. The first time you access this site you will need to register your password as shown in the screen captures below:





2.2 OBTAINING ADDITIONAL INFORMATION AND DOCUMENTATION

3C documentation, presentations and other valuable information is posted within the NEC Information Portal > NEC Downloads > 3C/Sphericall Folder.

2.3 CHANGES, ADDITIONS & DELETIONS TO PRICE BOOK

You can track changes in the Price Book based on the legend below. You can also download the XLS file published for 3C with tracked changes.

Changes

- This indicates changes in price, part number or description

Addition

- This indicates the addition of a NEW Part number

~~**Deletion**~~

- This indicates that the part # has been discontinued & will be removed from the next revision of the Price Book.

3 NEC's 3C UC Platform

FOR A COMPLETE & UP TO DATE **3C** PRICING, ALWAYS REFER TO THE NEC MASTERQUOTE SYSTEM.

3.1 3C LICENSING PRICING

Discount Group = 3C

Part #	Description	MSRP	Notes
410003	3C SAL (3C Access License)	$199	"Bundled" License including Station, Voicemail and Unified Messaging Access and Unified Communications Access via the 3C Desktop application. Designated by the abbreviation "SAL"
410004	3C TAL (Trunk Access License)	$149	Trunk Access License, designated by the abbreviation "TAL". Required for all trunk connections. Used for CLINK Trunk connections to SV Systems also.
410005	3C SRL (Recording License)	$299	3C Recording License, designated by the abbreviation "SRL". Recording licenses provide ad-hoc recording of telephone conversations. Recording is controlled through either the desktop application or directly from the phone. These licenses are concurrent user licenses so only the quantity required at peak operation time is needed.
410006	3C MSA (Media Service Application License)	$199	These licenses allow an external application to control services provided by the 3C Media Server. These licenses would only be required if you are working with an external application that uses these capabilities. These licenses are a simultaneous use license.
410007	3C STL (Station License)	$65	"Unbundled" License for Station only. Designated with the abbreviation of "STL" (Station License).
410008	3C VML (Voice Mail License)	$65	"Unbundled" License for Voicemail and unified messaging access only. Designated with the abbreviation of "VMS". The specific quantity of voicemail boxes and unified messaging access must be ordered.
410009	3C UAL / DTL (User Access License)	$100	"Unbundled" License for unified communications access via the 3C Desktop application. Designated with the abbreviation of "DTL" (Desktop License). The specific quantity of DTL licenses must be ordered based upon the quantity of desktop clients needed or soft-phones needed. Note the soft-phone will require an SAL or STL license for operation.

410034	3C UCM Software DVD	$25	ISO Formatted image including the 3C UCM System Software and all documentation. 3C software can also be downloaded within the 3C Licensing Server, free of charge.
412153	3C CMM Software DVD	$25	ISO Formatted image including the 3C CMM (Collaboration). 3C CMM can also be downloaded within the 3C Licensing Server, free of charge. This package includes 3 separate DVDs.
410035	3C New System	$0.01	This part is used for tracking "new system" sales of the 3C platform and must accompany all new system sales orders.
400998	3C JITC v7.1 System	$0.01	This part is used for tracking "new JITC Certified system" sales of the 3C v7.1 and must accompany sales orders. If this part is not included on order, your order will not be able to download the appropriate software.
401293	3C JITC UCM Software DVD	$25	ISO Formatted image including the 3C JITC Compliant System Software & all documentation. 3C software can also be downloaded within the 3C Licensing Server, free of charge. Refer to JITC Application Note (**AN-SPH-11-003**) for details regarding this release version.
410046	3C CSL (Collaboration Session Licences)	$275	These licenses allow for number of simultaneous collaboration sessions of 3C system. They are priced based upon the total quantity of participants using the 3C collaboration meeting center whether audio conferencing only or both audio and web conferencing.

3.2 3C SOFTWARE ASSURANCE (SSA) OVERVIEW

In order to receive technical support and/or to obtain upgrade software, Software Assurance is required.

Support Model

- Associate Provided Model: Associate provides support to end-user and NEC provides support to the Associate. The Associate technician who is calling in for support must be certified on the 3C system.

Support Features

- 24x7 remote technical support for priority 1 and priority 2 issues
- 8x5 remote technical support for priority 3 and priority 4 issues
- Major and Minor software updates (labor and hardware not included). Major updates include Upgrades. Minor updates refer to patches and/or "bug-fixes"

Priority Definitions

- *Priority 1:* System is down or there is a critical impact to the Associate's business operations. NEC and the Associate will commit necessary resources around the clock to resolve the situation.
- *Priority 2:* Operation of an existing System is severely degraded, or significant aspects of the Associate's business operation are being negatively impacted by unacceptable System performance. NEC and the Associate will commit full-time resources during normal business hours to resolve the situation.
- *Priority 3:* Operational performance of the System is impaired while most business operations remain functional. NEC and the Associate are willing to commit resources during normal business hours to restore service to satisfactory levels.
- *Priority 4:* Associate requires information or assistance on NEC Product capabilities, installation, or configuration. There is clearly little or no impact to the Associate's business operation. NEC and the Associate are willing to provide resources during normal business hours to provide information or assistance as requested.

Software Version

- In order to obtain technical assistance, even if SSA coverage is current, the software version of the 3C system must be within 2 major versions of the currently released version (N -2)

Software Assurance Tracking

- Software Assurance terms can be tracked and automatic notifications of pending expirations can be set up within NEC's InProvide system under the Software Assurance view
- 3C License Server is automatically updated by this information and sets licenses as ACTIVE or INACTIVE based upon this information
- For questions on Software Assurance, send an email to SWA@necam.com

3.3 3C SOFTWARE ASSURANCE (SSA) PRICING

Discount Group = Support Services 4 (previously "Associate Provided 3")

Part #	Description	MSRP	Notes
410003081	MNT 3C SAL SW Premium APS	$30	Priced per SAL per year
410004081	MNT 3C TAL SW Premium APS	$22	Priced per TAL per year
410005081	MNT 3C SRL SW Premium APS	$45	Priced per SRL per year

410002302	MNT 3C 2-Year Contract	$0	
410002303	MNT 3C 3-Year Contract	$0	
410002304	MNT 3C 4-Year Contract	$0	
410002305	MNT 3C 5-Year Contract	$0	

3.4 3C SOFTWARE ASSURANCE (SSA) & REACTIVATION FEES

Whenever Software Assurance coverage has lapsed for more than 89 days, reactivation fees are required along with purchase of current SSA in order to re-instate Software Assurance coverage.

Reactivation Fees are priced on the basis of the version at which the 3C system is at when it is sought to renew Software Assurance and in terms of the currently released version. The older the version of software on the system when seeking to renew, the more expensive the Reactivation Fees will be.

3C Versioning:

542246	Express5800 1U/WIN OS/Platinum+	$5618.89	**1U server with 16 GB of RAM includes the following:** • NEC Express5800 R120b-1 Server • Two Xeon E5606 2.40GHz 6C (Six Core) 12M L3 Cache CPUs • 16GB RAM & Two 500GB SATA HD • Hard Drives with RAID-1 level configured • 2 x 10/100/1000 Gigabit Ethernet Interfaces • DVD/CD-ROM Optical Drive • Windows Server Standard 2008 R2 • Redundant Power Supplies & Cooling Fans • 3 Year NECCare Standard Warranty • No Keyboard/Mouse included w/base server
542230	Express5800 1U/WIN OS/Bronze	$3743.84	**1U server with 8 GB of RAM includes the following:** • NEC Express5800 R120b-1 Server • Two Xeon E5606 2.13GHz 4C (Four Core) 8M L3 Cache CPUs • 8GB RAM & One 500GB SATA HD • 2 x 10/100/1000 Gigabit Ethernet Interfaces • DVD/CD-ROM Optical Drive • Windows Server Standard 2008 R2 • 3 Year NECCare Standard Warranty • No Keyboard/Mouse included w/base server

Both the 3C software and the DuVoice software can be installed on the same server up to a recommended maximum of 16 Dialogic Ports. If installing on one server, you will need a Reverse Serial Modem cable that will be connected to two serial ports on the Enterprise Server for SMDI connection between the 3C and the DuVoice application.

5 NEC's Gateways / HUBs

FOR A COMPLETE & UP TO DATE PRICING OF **NEC GATEWAYS/HUBS**, ALWAYS REFER TO THE NEC MASTERQUOTE SYSTEM.

UNIVERGE 3C NEC HUB Incompatibility Notice

TECHNICAL UPDATE REGARDING THE NEC VG3 MEDIA GATEWAYS

- LIMITATION: NEC VG3 Media Gateways with serial number 0636xxxxxx or lower are not supported with any Sphericall/UNIVERGE 3C system v7.1 or higher, this includes all releases of v8.x or later. The serial number can be found on the rear of the hardware outside panel of each MG.
- Due to changes in the MG firmware for security features, the NEC MGs are not supported for any v7.1 or v8.x system integrations. V7.0 and below systems are supported.

If you are upgrading to version 8.x or above and you have any of these gateways, mentioned above, please refer to Technical Bulletin TB135 entitled "MG Serial Number Support" for more information. With 8.0 and 8.1 software versions, it is possible to run the older gateways on firmware version 7.0, and this is fully supported by NEC. In order to do this, please reference the Technical Bulletin mentioned above.

5.1 NEC GATEWAYS/HUBS – (NOT PACKAGED)

Discount Group = 3C

Part #	Description	MSRP	Notes
400000	NEC COHub	$3,995	The COHub provides a single T1, E1, ISDN-PRI or ISDN-QSIG interface to the public telephone network or to other PBX's. Trunk Access Licenses must be purchased separately.
400001	NEC BranchHub	$4,900	The BranchHub provides 12 analog station ports and 6 analog trunk ports (COT/FXO). It provides power-loss transfer to connect phones to the PSTN. 3C Access Licenses and Trunk Access Licenses must be purchased separately
400003	NEC PhoneHub 24p	$4,450	The PhoneHub enables up to 24 analog stations including phones, fax machines, modems, etc. It supports power-loss transfer to connect an emergency phone to the PSTN as long as an analog PSTN connection is available. 3C Access Licenses must be purchased separately.
400004	NEC MeetingHub	$3,995	The Conference Bridge provides conferencing for up to 60 simultaneous participants across multiple conference lines. No additional licenses are necessary when deploying this unit

5.2 NEC GATEWAYS/HUBS – (PACKAGED)

Discount Group = 3C

Part #	Description	MSRP	Notes
Bundled Gateway Options			
402027	NEC COHub + 24TAL	$6,200	The COHub provides a single T1, E1, ISDN-PRI or ISDN-QSIG interface to the public telephone network or to other PBX's. This gateway is packaged with 24 Trunk Access Licenses.
402028	NEC COHub + 30TAL	$6,750	The COHub provides a single T1, E1, ISDN-PRI or ISDN-QSIG interface to the public telephone network or to other PBX's. This gateway is packaged with 30 Trunk Access Licenses.
402029	NEC BranchHub + 12STL & 6TAL	$6,200	The BranchHub provides 12 analog station ports and 6 analog trunk ports (COT/FXO). It provides power-loss transfer to connect phones to the PSTN. This gateway is packaged with 12 Station licenses (STL) and 6 Trunk Access Licenses
402030	NEC PhoneHub + 24STL	$5,800	The PhoneHub enables up to 24 analog stations including phones, fax machines, modems, etc. It supports power-loss transfer to connect an emergency phone to the PSTN as long as an analog PSTN connection is available. This gateway is packaged with 24 Station licenses (STL).

5.3 NEC GATEWAYS SOFTWARE ASSURANCE COVERAGE

Discount Group = Support Services 4 (previously "Associate Provided 3")

This is maintenance support on NEC Gateways. This covers the ability to call in to NEC's NTAC, receive software updates for the NEC Hubs and receive hardware replacement for NEC Hubs.

Part #	Description	MSRP	Notes
400000051	MNT NEC COhub HW Basic ARB	$300	Priced per Gateway

7 SONUS Quintum® Tenor® Gateways

FOR A COMPLETE & UP TO DATE PRICING OF ALL **NET/QUINTUM/TENOR** GATEWAY PRODUCTS OFFERED BY NEC, REFER TO THE NEC MASTERQUOTE SYSTEM.

IT IS HIGHLY RECOMMENDED THAT IF YOU ARE NOT FAMILIAR WITH SONUS TENOR GATEWAY PROGRAMMING OR IF YOU ARE PERFORMING A MORE COMPLICATED INSTALLATION, SUCH AS TRYING TO DIVIDE PORTS ON A GATEWAY INTO MULTIPLE GROUPS THAT YOU PURCHASE SONUS REMOTE INSTALLATION SERVICES. THESE SERVICES ARE AVAILABLE WITHIN THE NEC MASTERQUOTE SYSTEM.

7.1 SONUS QUINTUM® TENOR® OVERVIEW

All Tenor gateways that include COT and Station analog ports provide Power Fail Transfer to the analog stations on the gateway.

In addition, survivable gateways (SG) provide SIP Proxy capability in the event that communications is lost with the 3C server, thus allowing SIP phones to register with the gateway and utilize any trunk ports on that gateway, including digital trunks (T1/E1/ISDN-PRI) for emergency calling. The following quantities of IP Phones can fail over to the Survivable (SG) Quintum gateways based on the Quintum Series of gateway being used:

- AF Series Survivable Gateways (SG) support up to 50 IP Phone Failover per gateway
- AX Series Survivable Gateways (SG) support up to 100 IP Phone Failover per gateway
- DX Series Survivable Gateways (SG) support up to 120 IP Phone Failover per gateway

Note, when using Quintum gateways with Sphericall/3C Version 6.3 for an analog connection to DuVoice, you must install the SMDI Patch available through NEC NTAC or for download within the NEC Information Portal under NEC 3C Folder within NEC Downloads. This patch provides integration between the Quintum Gateways and the DuVoice application. This patch is not necessary with version 6.4 or later.

7.2 SONUS QUINTUM® TENOR® AF SERIES PRICING

7.5 SONUS QUINTUM® TENOR® GATEWAY SUPPORT

Discount Group = Support Services 3 (previously "Associate Provided 2")

NET ADVANCED Maintenance Support

Part #	Description	LIST	Notes
440001061	MNT NET-ADV-AF HW+SW	$216	Advanced Remote Support AF Series
440021061	MNT NET-ADV-AX HW+SW	$475	Advanced Remote Support AX Series
440047061	MNT NET-ADV-DX2 HW+SW	$999	Advanced Remote Support DX2 Series
440055061	MNT NET-ADV-DX4 HW+SW	$999	Advanced Remote Support DX4 Series

Includes:

- Email and telephone access to the NET Technical Assistance Center (TAC) for Hardware and Software Support
- NET TAC telephone access is available on a 24x7x365 basis, including NET designated holidays – Contact Information is at http://www.net.com/Pages/Support.aspx?pgid=130
- Software upgrades for VX and Tenor product operating code and for specific Customer purchased VX and Tenor application features (does not include new features, which are charged separately)
- Replacement NET Product or parts. Such products or parts will ship next business day, Monday – Friday, excluding NET designated holidays provided that NET receives request for services is received by 3:00 PM Eastern Standard Time (EST)

Customer Responsibilities:

- Customer may contact NET TAC by phone or email to report an issue with an NET Product(s). All matters requiring immediate attention, however, must be called into NET TAC.
- Customer completes the Return Material Authorization (RMA) form located online at the Customer Support site, http://www.net.com/pages/support.aspx?pgid=203. After receiving the completed form, NET TAC may contact the Customer to verify the reported failure. After failure confirmation, NET will ship a replacement part the next business day, using available priority shipping methods. NET is responsible for shipping charges associated with the advance part to the Customer.
- After receipt of the advance part, Customer must ship the defective part, with the accompanying return tag, to the identified NET Logistics Center within 15 calendar days after the replacement part is received. Customer is responsible for shipping charges and expenses, such as Customs, duties, and taxes, associated with return of the defective product or part to the NET designed address.

- If the reported defective product or part is not returned to NET within 15 calendar days, or if Customer is not able to provide a verifiable carrier/waybill number for the return of said product or part issued within said 15 day period, future requests for Advance Part Exchange services may be denied and Customer requests for service on defective products or parts will be managed under the NET BASIC service request at no additional cost to the Customer. However, Customer will be responsible for costs associated with shipping, receiving, Customs, duties and taxes.

NET ADVANCE EXCLUSIONS:
The services listed below are not part of NET ADVANCE, but may be available from NET through another Professional Service:

- Relocation or reconfiguration of NET Products
- Problem resulting from Customers system design

Repair or replacement of NET Products which have been improperly handled, stored, installed or maintained by the Customer

- Telco problems
- First level diagnostics of network faults
- Non-NET related problems
- Installation of NET products
- Replacement of defective parts identified by 's Customer's first level diagnostic activity
- Non-mandatory engineering changes
- Project management or coordination services
- On-site maintenance services

NET BASIC Maintenance Support
When quoting in NEC MasterQuote System, on the Configuration Tab of MQ, under the Software Assurance type coverage, select SW+HW for below Tenor coverage.

Includes:

- Email and telephone access to the NET Technical Assistance Center (TAC) for Hardware and Software Support
- NET TAC telephone access is available on a 24x7x365 basis, including NET designated holidays
- Software upgrades for VX and Tenor product operating code and for specific Customer purchased VX and Tenor application features (does not include new features, which are charged separately)
- RMA Hardware Return for Repair service

Customer Responsibilities:

Customer may contact the NET TAC by phone or via our Customer Support Portal (information at: http://www.net.com/Pages/Support.aspx?pgid=130) to report an issue with an NET Product(s). All matters requiring immediate attention, however, must be called into NET TAC.

- Customer is responsible for completing the Return Material Authorization (RMA) form located online at the Customer Support site, http://www.net.com/pages/support.aspx?pgid=203.
- After receiving this completed form, NET TAC may contact the Customer to verify the reported failure. After failure confirmation, NET will provide the Customer an RMA tracking number and shipping instructions for the return of the defective Product or parts. The Customer is responsible for shipping charges and expenses, such as all applicable Customs, duties, and taxes, associated with the return of faulty parts to the NET repair facility.
- NET will repair defective parts and NET will ship the repaired part back to Customer within thirty (30) days of receipt of the defective part. NET is responsible for shipping charges associated with the return of repaired parts to the Customer. Shipment times, however are not guaranteed. Shipment times may be affected by a number of events, including clearing customs and other factors outside NET's control.
- Repaired NET Product are warranted for ninety (90) days or the balance of the NET BASIC service contracted period, whichever is longer. NET shall not be responsible for the repair of any NET Product that is damaged as a result of improper shipment packaging or neglect. In such instances, NET shall return the defective part to the Customer stating the reason(s) why the repair was not performed.

NET BASIC EXCLUSIONS

The services listed below are not part of NET BASIC, but may be available from NET through another

Professional Service:

- Relocation or reconfiguration of NET Products
- Problem resulting from Customers system design
- Repair or replacement of NET Products which have been improperly handled, stored, installed or maintained by the Customer
- Telco problems
- First level diagnostics of network faults
- Non-NET related problems
- Installation of NET products
- Replacement of defective parts identified by Customer's first level diagnostic activity
- Non-mandatory engineering changes
- Project management or coordination services
- On-site maintenance services

NET TAC Only Maintenance Support

When quoting in NEC MasterQuote System, on the Configuration Tab of MQ, under the Software Assurance type coverage, select SW only for below Tenor coverage.

10 Polycom® SIP IP Desktop & Conference Phones

FOR A COMPLETE & UP TO DATE PRICING OF ALL **POLYCOM** VOICE PRODUCTS OFFERED BY NEC, REFER TO THE LATEST PUBLISHED "*POLYCOM SOUNDSTATION AND SOUNDPOINT PRICING BOOK*" (DOCUMENT # **PBK2900-10-004** ON THE NEC PORTAL) OR THE NEC MASTERQUOTE SYSTEM.

10.1 POLYCOM END OF LIFE AND LIMITED INTEROPERABILITY TESTING

NEC appreciates the loyalty of its long-standing customers, many of whom have some of the earliest versions of Polycom handsets. While these have been excellent devices in operation, it becomes difficult to continue to deliver support for devices which are no longer sold and may be reaching service discontinuation by their original manufacturer. NEC will continue to do its best to provide the last supported firmware with 3C release, but the level of testing of these devices will be reduced. Beginning with this 3C release (7.0.1) NEC has done limited interoperability testing on the devices listed in the table below. NEC plans to discontinue interoperability testing for these devices on 3C software released after version 7.1. With the upcoming version 8.0 release, 3C will no longer support any of the below phones.

Products	Sales Discontinuation Date	Service Discontinuation Date
SoundPoint IP 300 (SIP, MGCP)	05/21/2006	05/01/2011

12.10 POLYCOM® VIDEO SUPPORT SERVICE LEVEL AGREEMENTS, DEFINITIONS & CONDITIONS

Polycom Video collaboration support is provided directly by Polycom. NEC is offering 2 options for Polycom Maintenance with the sale of Polycom Video & Infrastructure products. Maintenance is mandatory on all Polycom Video equipment sold by NEC. Refer to the diagram below for details on such options.

NEC Part # & Description Prefix	Polycom SLA	Telephone Support (business hours)	Advance Parts Replacement	On-Site Support	Software Upgrades & Updates	Access to Online Support Tools
PLC1 (1 yr) xxxxxx001 PLC3 (3 yr) xxxxxx003	Premier	Yes	Yes	No	Yes	Yes
PLC1-OS xxxxxx091 PLC3-OS xxxxxx093	Premier On-Site	Yes	Yes	Yes	Yes	Yes

*Always refer to the latest published "Polycom Video and Infrastructure Pricing Book" (Document # **PBKOP-10-001** on the NEC Portal) for more detailed information regarding Polycom maintenance/support options.*

Unlimited Technical Telephone Support – Provides first come, first served access to technical support engineers who assist in solving issues by phone. Phone support is available during normal business hours in the designated support center's local time, Monday through Friday, or in accordance with your agreement, excluding national and local holidays observed by Polycom.

Software Updates and Upgrades – Provides you with both software updates and upgrades. Software updates correct software errors. Software upgrades provide you with major features and functionality releases. You can download these yourself when ready, or set up automatic downloads.

Advance Replacement of Parts – Provides expedited replacement of all covered, failed hardware parts. If technical phone support determines that there is a hardware part failure or if there is an obvious malfunction, a replacement part will be dispatched on the same day for next business day delivery. *Local pick-up time restrictions and customs delays may affect actual delivery time in some regions*

On-Site Support – Provides onsite support. Polycom will provide the end user customer ("Customer") one Polycom Engineer to be onsite at the Customer's designated site or facility for an initial dispatch period of 2 days or any part thereof. After the initial dispatch, additional dispatch days can be purchased. The Polycom Engineer will be onsite for each additional day purchased or any part thereof. The Polycom Engineer is available Monday through Friday excluding Polycom holidays from 8 AM to 5 PM local time. The task for each visit will be stated in writing by the Customer and will be agreed to by Polycom prior to the Polycom

Engineer coming onsite. *Refer to the latest published "Polycom Video and Infrastructure Pricing Book" (Document # PBKOP-10-001 on the NEC Portal) for detailed and accurate information.*

13 Spectralink 8400 Wireless LAN (WLAN) Phones

FOR A COMPLETE & ACCURATE PRICING OF **SPECTRALINK 8400 WLAN** PRODUCTS, REFER TO THE LATEST PUBLISHED "*NEC CORDLESS & IN-BUILDING WIRELESS PRICE BOOK*" (DOCUMENT # **PBK3000-12-001** ON THE NEC PORTAL) OR THE NEC MASTERQUOTE SYSTEM.

The following information provides pricing the Spectralink Series 8400 WLAN handset. Both the 8440 and 8450 WLAN handsets have been successfully tested with UNIVERGE 3C.

The 8440 and 8450 can support up to 4 lines each. Each line requires a 3C STL License.

The following information provides pricing the Spectralink Series 8400 WLAN handset. The 8440, 8450 (barcode: 1D support) and 8452 (barcode: 2D support) can support up to 4 lines each. The 4 lines are independent of each other and don't constitute the device as supporting multiline function like other wireless devices or the wired terminal. Each active line will require a 3rd party SIP license.

SpectraLink 8400 Wireless Telephones improve productivity and responsiveness for on-site mobile professionals across a wide range of industries, including healthcare, retail, manufacturing and hospitality. Built on open standards, the SpectraLink 8400 series transforms the delivery of mobile enterprise applications by bringing the power of thin client and browser technology to front-line professionals in an easy-to-use and easy-to-manage interface. Additionally, the SpectraLink 8400 series supports the industry's broadest range of interfaces to enterprise-grade PBX, wireless LAN, and infrastructures to deliver maximum interoperability with the lowest overall cost of ownership in the industry.

8440 Black/Blue

84xx in docking station

8450/8452 Black/Blue

- Transform workflows with application, voice, and data integration
- Maximize staff efficiency by leveraging Web-based applications through the industry's only enterprise VoWLAN device with integrated WebKit-based Web browser, bar code imager and XML-based API.
- Streamline workflows by seamlessly connecting with on-premises peripherals via the exclusive Polycom Quick Barcode Connector™ (QBC) interface
- Minimize data input errors with an integrated barcode imager (SpectraLink 8450/8452 models only)
- Rapidly communicate among groups with integrated Push-to-Talk
- Operate in loud environments with advanced noise suppression technology

- Install a future-proof solution that leverages the 802.11n standard
- Consolidate disparate paging, telephone, scanning, two-way radios, intercom, conferencing, and location tags into a single device

13.1 SPECTRALINK 8440 AND 8450 WLAN HANDSETS AND BUNDLES

Discount Group = Applications 2

Part #	Description	NEC List Price	Notes
402414	8440 Dual Charger Bundle – Blue	$885	SpectraLink 8440 North American Handset Bundle, Blue. Includes 1x SpectraLink 8440, Blue (402403), 2x standard battery (402410), 1x dual charger (402407), and 1x power supply for USA (402412). 13.3 SPECTRALINK 8440 AND 8450 WLAN HANDSET – MAINTENANCE

Discount Group = Support Services 6

When purchasing any handset, whether it is in a bundle or not, warranty for one year is automatically provided. NEC also allows the following enhanced maintenance options;

The standard warranty is outlined in the SpectraLink Warranty Guide on the Spectralink website. Additionally NEC is pleased to offer Advanced and Advanced Plus maintenance contracts. The contracts can be purchased for one year or three year terms.

Advanced Plus Level

The Advanced Plus level offers a premium solution to customers whose system availability is critical. It provides next business-day on-site service for infrastructure, advance replacement of Wireless Telephones, proactive software update notifications, remote testing, and unlimited telephone technical support 24 hours a day, seven days a week.

Advanced Level

The Advanced level is designed for customers who need immediate replacements, yet can meet critical system requirements without Polycom support on site. It guarantees advance shipment of both replacement infrastructure components and Wireless Telephones, software updates as required and unlimited telephone technical support 24 hours a day, seven days a week.

Within each one of these categories there are options for our customers can also purchase liquid damage support for each of the above mentioned maintenance contracts. Any handset covered under the liquid damages contract would be replaced for any damage caused by cleaning fluids or accidental water damage.

If you select to purchase Spectralink enhanced maintenance option, that option must be used for the entire site.

14.1 NEC MH150 & MH160 WLAN PHONES PRICING

Discount Group = MH100 Handset

Part #	Description	MSRP	Notes
0381325	MH150 Dual Charger Bundle	$715	Each bundle includes one MH150 handset, one dual charger, one AC adapter and two extended lithium batteries. The bundle does not include handset cases.
0381326	MH160 Dual Charger Bundle	$775	Each bundle includes one MH160 handset, one dual charger, one AC adapter and two extended lithium batteries. The bundle does not include handset cases. This handset provides Push to Talk (PTT) capability. PTT mode with 24 channels plus one priority override.
0381300	MH150 Wireless Handset NEC SIP	$595	The MH150 is a NEC Wireless SIP Mobile Handset, supporting 802.11a/b/g. Batteries are provided separately.
0381301	MH160 Wireless Handset NEC SIP	$675	The MH160 is a NEC Wireless SIP Mobile Handset, supporting 802.11a/b/g, Batteries are provided separately.
0381302	MH160 Clothing Clip	$19	Allows handset to be secured to a belt or clothing.
0381303	MH160 Swivel Clip	$19	Plastic, spring-loaded clip attaches to the MH160 handset. Allows handset to be secured to belt or clothing. The swivel clip adds the ability for the MH160 handset to rotate on the clip.
0381304	MH160 Swivel Case,BLK w/Keypad	$39	Swivel cases for MH160 handset. The carrying case is a two-piece swivel case that fits snugly around the Wireless Telephones. It is padded to endure rugged use. Available in black leather and high-visibility yellow vinyl with a clear keypad cover. This one is BLACK.
0381305	MH160 SWIVEL Case Yellow w/keypad	$39	Swivel cases for MH160 handset. The carrying case is a two-piece swivel case that fits snugly around the Wireless Telephones. It is padded to endure rugged use. Available in black leather and high-visibility yellow vinyl with a clear keypad cover. This one is YELLOW.

Part #	Description	MSRP	Notes
0381310	MH150/MH160 STD Lithium Battery	$55	Standard: Four hours talk time, 80 hours standby, Two-hour charge time.
0381311	MH150/MH160 EXT Lithium Battery	$75	Extended: Six hours talk time, 120 hours standby, Three-hour charge time.
0381312	MH150/MH160 ULTRA Lithium Battery	$95	Ultra-Extended: Eight hours talk time, 180 hours standby, Four-hour charge time.
0381313	MH150/MH160 Single Charging Stand	$65	The Single Charger charges the Battery Pack within the handset. The user has the ability to use all the keys or the speakerphone while the handset is in the charger. The Single Charger also allows for rapid charging handset for the fast-paced work environments. The power supply is ordered separately.
0381314	MH150/MH160 Dual Charging Stand	$95	The Dual Charger charges the Battery Pack within a handset along with a separate spare Battery Pack. The Dual Chargers includes a USB connection to allow for software upgrades. There is a single LED for the rear slot chargers. The handset slot charges, which is the followed by the Battery Pack slot. The handset will display charging information on the LCD in standby state. The power supply is ordered separately.
0381315	MH150/MH160 Quad Charger	$299	The Quad Charger charges four separate spare Battery Packs simultaneously. There is a single LED for each slot. The Quad Charger allows users to save time and improve productivity in maintaining a supply of charged Battery Packs in multi-shift environments. The power supply is ordered separately
0381316	MH150 Handset Clothing Clip	$19	Allows handset to be secured to a belt or clothing.
0381317	MH150 Swivel Clip	$19	Plastic, spring-loaded clip attaches to the MH150 handset. Allows handset to be secured to belt or clothing. The swivel clip adds the ability for the MH150 handset to rotate on the clip.
0381318	MH150/MH160 Holster	$39	Black rugged holster with belt clip for MH150/160 handset
0381319	MH150 Swivel Case, BLK w/Keypad	$39	Swivel cases for MH150 handset. The carrying case is a two-piece swivel case that fits snugly around the Wireless Telephones. It is padded to endure rugged use. Available in black leather and high-visibility yellow vinyl with a clear keypad cover. This one is BLACK.

Part #	Description	MSRP	Notes
0381320	MH150 Swivel Case, YEL w/Keypad	$39	Swivel cases for MH150 handset. The carrying case is a two-piece swivel case that fits snugly around the Wireless Telephones. It is padded to endure rugged use. Available in black leather and high-visibility yellow vinyl with a clear keypad cover. This one is YELLOW.
0381321	MH150/MH160 Lanyard w/Quick DI	$5	A corded lanyard with a quick disconnect clip
0381322	MH150/MH160 Lanyard w/Clothing	$5	A corded lanyard with a clothing clip

14.2 NEC MH150 & MH160 GATEWAYS & OPTIONS PRICING

Discount Group = MH100 Handset

Part #	Description	MSRP	Notes

Part #	Description	MSRP	Notes
690113	G355 IP Wireless HS (With Belt Clip Set)	$350	G355 Handset (pictured above),with battery and belt clip

G955 IP DECT Handset and Options

The G955 is NEC's premier Business Mobility device. It offers optimized mobility, accessibility, flexibility and comfort for business users at the highest level. Its enhanced features and appealing design are the perfect fit for enterprise use and offers many different call control options and features that seamlessly integrate with NEC's advanced IP servers, such as:

- Enhanced mobility features
- A large color illuminated graphic display and icon-based menu for ease-of-use
- Scratch-resistant, protected surface
- A speakerphone with excellent sound quality for hands-free operation
- Bluetooth module for additional hands-free operation
- Personal contact information storage and calendar
- Corporate telephone directory access
- Advanced call logging
- Standard rechargeable batteries
- Integrated call control options

The G955's intuitive user interface makes it the perfect device for industries such as hotels and hospitals that rely on sending and receiving messages and alarms quickly. The addition of an optional Bluetooth headset enhances user comfort and flexibility.

NEC I755 IP DECT Handset & Accessories

The I755 industrial use handset is designed for use in potentially demanding/harsh environments such as healthcare, manufacturing, retail and warehousing. This robust handset offers enhanced durability, and many different call control options and features that seamlessly integrate with NEC's advanced IP servers. The I755 provides:

- Enhanced mobility features
- A large color illuminated graphic display and icon-based menu for ease-of-use
- A scratch-resistant, protected surface
- A dustproof and waterproof housing
- Additional personal security features
- A speakerphone with excellent sound quality for hands-free operation
- A Bluetooth module for additional hands-free operation
- Personal and corporate telephone directory access
- Advanced call logging
- Standard rechargeable batteries
- Integrated call control options

Part #	Description	MSRP	Notes
690111	I755s DECT handset	$1,040	Requires one (1) 3C Station License (STL) or 3C Access License (SAL) per handset. The I755s DECT handset includes removable memory card and swivel belt clip. The I755 IP Wireless handset and accessories are designed for industrial applications. The robust handset is designed for potentially harsh environments, such as healthcare, manufacturing, retail and warehousing. It is dust- and waterproof and will keep working with users throughout the day. The dedicated SOS button and man-down function (based on non-vertical positioning) provide personal security. Advanced call-logging features enable incoming calls to be managed efficiently, without losing a single call. For easy service, the handset features a removable memory card, which stores user data and settings, as well as subscription data. This means that a handset can be replaced without re-subscribing or reprogramming.
690109	I755s Battery Pack	$149	I755s Battery Pack

750991	G355/955/I755 Memcard - 5 pcs/set	$260	Memory card for the G355/G955/ I755

15.3 NEC IP DECT WIRELESS DAP PRICING & OPTIONS

Discount Group = SMB Terminals, Terminal 2 Common, Key Common (SMB Group)

NEC DAP 300

The NEC AP300 is a 1.9Ghz spectrum access point to be used with all the NEC IP DECT Handsets (C124, G355, G955 and I755). The AP300 has 12 channels with the capacity for up to 11 simultaneous duplex calls per DECT Access Point (one channel is reserved for control signaling between DECT Access Points:

IP DECT provides wireless telephony in a single converged network that can be used for both fixed and wireless telephony. The IP DECT infrastructure provides the following features:

- DECT on top of IP and Open SIP based communication platforms

- Access Points connect directly to the IP network
- Support of 11 simultaneous calls per AP300
- Support of DECT compatible handsets
- Power over Ethernet (IEEE802.3af)
- Optional G.729 compression with add-on board
- Secure voice communication through DECT authentication and encryption
- Crystal clear speech and seamless handover
- Scalable up to 750 APs in one network
- Easy to deploy, install and maintain
- Can be combined with AP200 APs in existing systems

Part #	Description	MSRP	Notes
690024	AP300 NEC IP DECT Access Point	$ 1,500	The NEC AP300 DECT Access Point (DAP) is a compact, easily installed, plug-and-play DECT Access Point that provides wireless telephony to IP networks. The building block of the Business Mobility wireless infrastructure, in the North America is the AP300 Access Point (DAP) in the 1.9 GHz spectrum. The DAP is an Omni-directional radio base station that connects directly to the LAN via a L2 switch port, just like the NEC IP PBX. The AP300 has 12 channels with the capacity for up to 11 simultaneous duplex calls per DECT Access Point (one channel is reserved for control signaling between DECT Access Points • Requires power from either of the following: • Data switch with 802.3af POE or 802.3af adapter • Requires Cat 5 or higher cabling. ***REQUIRES NEC IP DECT WIRELESS CD (PART 690705) for each system deployment.***
690705	NEC IP DECT Wireless CD	$250	Software package that is required for per location in order to properly licenses, configure the DECT network and manage message communication between DECT sets. The DECT network security key provides security parameter as well as documentation. Provides the PARI key that is used for DMLS access.
750615	NEC DECT Power Injector	$125	802.3af compliant power injector. Create inline power on the Ethernet network to the DAP unit. Single port
750616	NEC SIP DECT SITE Survey Kit	$12,000	SIP Site Survey Kit for the DECT AP300

15.4 BUSINESS MOBILITY DMLS (DECT MESSAGING & LOCATION SERVICES)

DMLS (DECT Messaging and Location Services): The DMLS interface enables 3rd party information systems such as alarm and control, paging, databases, and scheduling to message and locate G955 and i755 IP DECT wireless handsets. This interface is ***NOT*** required if messaging just between NEC DECT handsets. NEC and AMCOM Software have partnered to provide robust messaging applications.

The DECT Messaging and Location Services (DMLS) interface offers a universal software interface for 3rd party application and the (IP) DECT System. It is required that 3rd party messaging service providers work with the SDK (software development kit) and confirm interoperation prior to purchasing and deploying the DMLS functionality.

Each IP DECT system has a unique PARI key and the PARI Key can only be linked to one DMLS license. ***The PARI key provided with the NEC IP WIRELESS CD (PART 690705) purchase and is required when integrating the DMLS functionality.***

There are two licenses available; DMLS basic licenses and another designed specifically for the SV8100.
Special Notes:

- ***The DLMS is not required if NEC DECT sets are texting between the devices. It is only utilized when there is a need to connect the NEC DECT IP to outside messaging services.***
- 3rd party vendors that would supply messaging services to the NEC DECT set through the DMLS need to support the open API interface specification. Additional information on the Open API can be obtained through the NEC partner program.

Business Mobility DMLS Pricing

Stock #	Stock Name	MSRP	Description
690028	DMLS basic license	$5,500	Used in messaging applications for the SV8300, SV8500 & 3C
690030	DMLS basic license for SV8100	$2,280	Used in messaging applications for the SV8100

690705	NEC IP DECT Wireless CD	$250	Software package that is required for per location in order to properly licenses, configure the DECT network and manage message communication between DECT sets. The DECT network security key provides security parameter as well as documentation. Provides the PARI key that is used for DMLS access.

16 SMB Wireless Mobility – ML440 handset & AP20

FOR A COMPLETE & UP TO DATE PRICING OF **SMB WIRELESS MOBILITY** PRODUCTS, REFER TO THE LATEST PUBLISHED "*NEC CORDLESS & IN-BUILDING WIRELESS PRICE BOOK*" (DOCUMENT # **PBK3000-12-001** ON THE NEC PORTAL) OR THE NEC MASTERQUOTE SYSTEM.

16.1 SMB WIRELESS MOBILITY – ML440 HANDSET AND AP20 RADIO

NEC's SMB Wireless (ML440) solution enables you to provide your employees true on-site mobility with the productivity enhancing features and functionality of their desktop phone. SMB Wireless allows your employees to stay in-touch with colleagues and customers – resulting in improved efficiency and increased customer satisfaction.

SMB Wireless provides a more flexible work environment by delivering on-site wireless telephony through the superior quality of the well-established Digital Enhanced Cordless Telephone (DECT) technology with all of the benefits of IP. It extends the reach of your voice communications by using your converged network to offer feature transparency between the wired and wireless world without any compromise in voice quality, availability and security.

SMB Wireless advantages:

- Delivers true on-site mobility that improves efficiency and productivity
- Provides a cost-effective in-building wireless solution built on proven technology
- Offers crystal clear speech, seamless handover and secure air interface through powerful encryption
- Provides a powerful web-based management tool that simplifies administration
- Improves customer satisfaction

Stock #	Stock Name	MSRP	Description
730653	SMB ML440 Bundle Package	$1800	A special SMB Wireless Bundle that includes three (3) ML440 handsets and one (1) AP20.
730651	AP20 Access Point 20 Series	$780	The AP20 is a radio that operates in the 1.9GHz radio spectrum. The building block of the SMB Wireless infrastructure in North America is the AP20 DECT Access Point (DAP) in the 1.9GHz spectrum. The AP20 is an Omni directional radio AP20 radio that connects directly to the LAN via a L2 switch port, just like the NEC DT7XX series desk phones. The AP20 is a compact and easily installed plug-and play module, the software for which can be downloaded from any computer using a WEB interface. It can be powered with devices that support IEEE802.3af standard; either externally (via Ethernet power injector) or via the LAN port that supports 802.3af power. The AP20 can be mounted on walls or with the optional ceiling mount.
730650	ML440 Multiline Wireless Handset	$490	Each ML440 handset comes with a dual charger as well as the AC adapter. The handset comes with one lithium based battery. There is an additional slot in the dual charger to charge a separate battery. Additional batteries must be purchased separately.
730657	ML440 3.7V Li-ION Spare Battery	$52	This battery is replacement or spare for the ML440. Charger is equipped to place the spare battery for charging/storage until use
730658	AP20 Ceiling Mount	$64	Optional ceiling mount for the AP20 which is not equipped on the AP20 (part number 730651)
730659	ML440 Charger Unit	$64	Optional spare charge for the ML440. The charger is include with the base ML440 order (part number 730650)
730660	ML440 AC Adaptor Charger	$64	Optional spare AC adapter for the ML440. The charger is included with the base ML440 (part number 730650)
730661	ML440 Leather carrying Case	$52	Separate protective leather case to reduce wear and tear to the ML440 handset. THIS IS NOT A RUGGITIZED CASE
730663	ML440 Belt Clip Assembly	$32	Belt Clip for ML440 handset
730649	DTL-RTP-2 (Cordless DECT Repeater)	$330	DECT Repeater

17 UNIVERGE Business Connect (BCT)

FOR A COMPLETE & UP TO DATE PRICING OF **UCB CONTACT CENTER**.

17.1 UNIVERGE BCT OVERVIEW

UNIVERGE Business Connect (BCT) is an all-in-one ready-to-go Contact Center solution that offers a variety of option:

- One Box Solution
- One point of Management
- Complete Set of Features with modular design
- Easy to install & self-maintain with excellent price / performance

UNIVERGE BCT is an all-in-one Unified Communication solution that provides Operator, Contact Center and Employee functionality on one server, using one database and a single user interface. This scalable, flexible and robust UC solution is ideally suited to meet the dynamic business communication needs of today.

UNIVERGE BCT allows central deployment of clients and thanks to .Net and smart client technology there is no need to install a client application on the user's PC. This all adds up to a lower Total Cost of Ownership. Clients and server communicate over the LAN, but also the voice media related services such as voicemail, auto-attendant and contact center queue announcements. This offers great flexibility in designing and deploying various configurations.

UNIVERGE BCT offers a variety of features and options that can be built to specific customer's needs:

- All-in-one Unified Communications
- Operator, Contact Center, Employee
- Extensive Directories
- Integrated Voicemail
- Presence management
- Instant Messaging
- Multiple simultaneous languages

17.2 UNIVERGE BCT CORE PRICING

Discount Group = Applications 1

Part #	Description	MSRP	Notes
Operator

20 Metropolis Call Accounting Products

FOR A COMPLETE & UP TO DATE PRICING OF **METROPOLIS** PRODUCTS OFFERRED BY NEC, REFER TO THE NEC MASTERQUOTE SYSTEM.

20.1 METROPOLIS OFFICEWATCH & PROFITWATCH PRODUCTS OVERVIEW

Metropolis Call Accounting is available in two versions, OfficeWatch, which is designed for business usage and ProfitWatch, which is designed for hospitality usage. It is also available in three models:

- Standard: Full-featured standalone system
- Web: Allows an unlimited number of users access to OfficeWatch using a web browser
- Enterprise: Users gain access to OfficeWatch via web browser or client/server environment. This version supports multi-site operation. Multi-site operation is required when there are multiple customer locations that have differing primary telephone numbers (Area Code and/or Office Exchange), where billing rates may be different

Metropolis PC/Server Requirements

- Windows 2000/2003/XP/Vista
- Pentium-class PC
- CD-ROM drive
- Sound card with speakers
- Mouse
- serial ports and serial cables
- Optional modem for 911 and emergency paging

Metropolis Call Accounting products can be virtualized using VMWare or Microsoft Hyper-V.

20.2 OFFICEWATCH CALL ACCOUNTING (GENERAL BUSINESS)

OfficeWatch Call Accounting for Business is one of the most widely-used call accounting systems today due to its
innovative features, management tools and ease of use. Using the Installation Wizard, OfficeWatch can be up and
running in as little as 20 minutes. Great for tracking employee phone usage, incoming customer calls, billing client phone calls and much more!

Key Benefits

- Increases employee efficiency and productivity
- Interfaces with virtually every PBX
- Stores records of incoming, outgoing and internal calls indefinitely
- Over 200 customizable reports that can be printed, emailed automatically or generated on the fly from the Internet or network
- Flexible client/tenant billing and invoicing options
- 911 call alerts via synthesized voice, cell phone text message, email and pager notification
- Graphical trunk analysis utility available for in-depth trunk monitoring • Multi site call tracking and reporting
- Automatic archiving of historical call records
- Software can share non-dedicated PC
- Lowers telecom costs

20.6 PROFITWATCH CALL ACCOUNTING (HOSPITALITY)

ProfitWatch Hotel Call Accounting is one of the most widely-used call accounting systems in hospitality due to its innovative features, flexibility and ease of use. ProfitWatch easily

interfaces with all Property Management Systems and PBXs and allows users to quickly set their own rates. Using the Installation Wizard, users can have ProfitWatch up and running in as little as 20 minutes.

ProfitWatch is a preferred product for the following hotel management companies:

- Starwood Hotels
- Marriott International
- Hilton Hotels
- InterContinental Hotel Group
- Ramada
- Kimpton Hotels
- Choice Hotels
- Morgans Hotel Group
- And many more!

Key Benefits of ProfitWatch are:

- Flexible billing options such as VIP pricing, bubble pricing and many rating options
- Notifies users of irregularities and emergencies via text message or email
- Easy to configure telephone billing options
- Scheduled reports that can be automatically emailed to appropriate staff on a regular basis
- Sophisticated graphical trunk analysis utility for in depth trunk monitoring
- Interfaces with virtually every PBX and Property Management system
- Increases employee efficiency and productivity

0221411	D/120 PCI-E 12 Port Analog Board	$4,940	12-Port PCI-E card available if Associate is providing their own server rather than quoting the NEC provided server

21.5 DuVoice Remote Installation

Discount Group = Support Services 2 (previously "NEC Provided 2")
NOTE: Remote Installation Support is required on all DuVoice purchases. NEC MasterQuote will automatically add this pricing to your quotation.

After purchasing the DuVoice System with Remote Installation, Please contact your DuVoice project manager by phone 425-250-2393 or email support@duvoice.com to begin the process.

An assigned DuVoice Professional Services Technician will work with the Re-seller project manager and / or technicians, and with the end user to gather the information necessary design the application. Using the information you will provide via spreadsheets, your DuVoice Professional Services Technician will complete system programming which may be loaded onto the system before it is shipped to you, or may be uploaded in the field, depending on time constraints and whether the system is shipped directly from DuVoice or from Distributor inventory. On the cut-over day, the DuVoice technician will work with the Reseller technician to test the DuVoice to PBX integration, the application, and, if this is a hospitality application, to facilitate integration with the Property Management System (PMS). After satisfactory completion of the cut-over, your DuVoice Professional Service Technician will administer a 1.5 hour end user training session. This training time can be used to train end user employees in the day to day use of the system, or to train a system administrator on system operations and programming.

- Associate Purchase Order

Send order to

- Customer_Service@necam.com
- Copy 3CSalesSupport@necam.com

For Software Assurance assistance, you can contact SWA@necam.com

25.4 3C LICENSE SERVER

When ordering new system software licenses or add-on system software licenses, a Software Key Code (SKC) will be emailed to you in the form of a "PDF" attachment. The SKC must be imported within the 3C License Server in order to obtain the updated "XML License" file required to activate the newly ordered licenses. Only Authorized NEC Associates can import the SKC to the 3C License Server (end-users cannot import the SKC).

In addition, when wanting to upgrade to the latest version of the 3C system, the 3C License Server must be accessed so that you can download the latest software (you can order the software on DVD by ordering part number 410034 & 412153) and/or obtain the latest “XML License” file that will allow upgrade to the latest version of software. In order for the “XML License” file to allow support for the latest version of 3C software, Software Assurance must be “Active” or no “XML License” file will be available for download.

Download of UNIVERGE BCT Software is also available from the 3C Licensing Server, once BCT is released.

The 3C License Server is located within the NEC Information Portal at https://eip.necam.com/login.aspx. Once logged into the NEC Information Portal, the 3C License Server is located under the under the “Programs” menu and then the “3C License” option.

26 Sales Support and Additional Information

3C Sales Support can be sought from your NEC Account Manager or Sales Engineer. Additionally, Sales Support can be obtained from Solutions_Architects@necam.com (Solutions Architects).

Additional information on 3C, including the following, can be found within the NEC Information Portal under Applications Menu, NEC Downloads and NEC 3C Folder;

- Presentations, Brochures
- 3C License Server instructions
- MasterQuote training and helpful hints documentation
- DuVoice Training material and documentation
- WLAN and IP DECT Brochures
- NET/Quintum/Tenor Gateway Wizard Guide
- System Documentation
- Case Studies and more

3C Technical Certification is online and is available free of charge. To register for 3C Technical Certification, go to https://www.myneclearning.com. If you have an end-user that wants to utilize the 3C online training, you as an Associate must “sponsor” that end-user for the training. To do so, contact Training@necam.com
